# AWS Free Tier

The Amazon Web Services (AWS) Free Tier is designed to enable you to get hands-on experience with AWS Cloud Services. The AWS Free Tier includes services with a free tier available for 12 months following your AWS [sign-up](#) date, as well as additional service offers that do not automatically expire at the end of your 12 month AWS Free Tier term.

After creating your AWS account you can use any of the products and services, listed below, for free within certain usage limits.

You can start today and automatically take advantage of the AWS Free Tier by following the steps below:

1. [Sign up for an AWS account.](#)
2. Enter your billing address and credit card information. You will not be charged unless your usage exceeds the free tier limits.
3. Start using AWS Cloud services, choosing from any of the products listed below.

### Amazon S3

Secure, durable, and scalable object storage infrastructure.

[Learn More »](#)

For example, run 1 instance x 1 month or 2 instances x half a month

Expires 12 months after sign-up.

**5 GB** of Standard Storage

**20,000 Get Requests**

**2,000 Put Requests**

Expires 12 months after sign-up.

### Amazon RDS

Managed Relational Database Service for MySQL, PostgreSQL, MariaDB, Oracle BYOL, or SQL Server.

[Learn More »](#)

**750 Hours** of Amazon RDS Single-AZ db.t2.micro Instance usage

**20 GB** of DB Storage: any combination of General Purpose (SSD) or Magnetic

**20 GB** for Backups (with RDS Magnetic storage; I/Os on General Purpose [SSD] are not separately billed)

**10,000,000 I/Os**

Expires 12 months after sign-up.

### AWS Lambda

Compute service that runs your code in response to events and

**1,000,000** free requests per month

**Up to 3.2 million seconds** of compute time per month

automatically manages the compute resources

[Learn More »](#)

Does not expire at the end of your 12 month AWS Free Tier term.

## AWS Free Tier Eligible Software

AWS Marketplace offers more than 700 free and paid software products that run on the AWS Free Tier. If you qualify for the AWS Free Tier, you can use these products on an Amazon EC2 t2.micro instance for up to 750 hours per month and pay no additional charges for the Amazon EC2 instance (during the 12 months). Software charges may still apply for paid software.

to 200M requests per month with [Amazon DynamoDB](#).\*\*

### Amazon Cognito

- The Your User Pool feature has a free tier of 50,000 MAUs each month\*\*
- The Federated Identities feature for authenticating users and generating unique identifiers is always free with Amazon Cognito\*\*

Cognito also includes:

- 10 GB of cloud sync storage. Expires 12 months after signup
- 1,000,000 sync operations per month. Expires 12 months after signup

The Your User Pool feature is currently in Beta and you will not be charged for sending SMS messages for Multi-Factor Authentication (MFA) and phone verification. However, separate pricing for sending SMS messages will apply after the conclusion of Beta period.

### AWS CodeCommit

- 5 active users per month\*\*
- 50 GB-month of storage per month\*\*
- 10,000 Git requests per month\*\*

markers, and 30,000 workflow-days.\*\*

### Amazon Simple Queue Service (SQS) and Amazon Simple Notification Service (SNS)

- 1,000,000 Requests of [Amazon Simple Queue Service](#)\*\*
- 1,000,000 Requests, 100,000 HTTP notifications and 1,000 email notifications for [Amazon Simple Notification Service](#)\*\*

### Amazon Elastic Transcoder

- 20 minutes of SD transcoding or 10 minutes of HD transcoding\*\*

### AWS Key Management Service

- 20,000 free requests per month\*\*

### AWS Lambda

- 1,000,000 free requests per month\*\*
- Up to 3.2 million seconds of compute time per month\*\*

### AWS CodePipeline

- 1 active pipeline per month\*\*

### AWS Device Farm

- Free one-time trial of 250 device minutes

### AWS Step Functions

## Amazon CloudWatch

- 10 [Amazon Cloudwatch](#) custom metrics, 10 alarms, and 1,000,000 API requests\*\*
- 5 GB of Log Data Ingestion\*\*
- 5 GB of Log Data Archive\*\*
- 3 Dashboards with up to 50 metrics each per month\*\*

## AWS X-Ray

- 100,000 traces recorded per month\*\*
- 1,000,000 traces scanned or retrieved per month\*\*

## Amazon Mobile Analytics

- 100 million free events per month\*\*

## AWS Database Migration Service

- 750 Hours of Amazon DMS Single-AZ dms.t2.micro instance usage\*\*
- 50 GB of included General Purpose (SSD) storage\*\*

- 4,000 state transitions per month\*\*

## Amazon SES

- 62,000 Outbound Messages per month to any recipient when you call Amazon SES from an Amazon EC2 instance directly or through AWS Elastic Beanstalk.\*\*
- 1,000 Inbound Messages per month.\*\*

## Amazon QuickSight

- 1 user, 1 GB of SPICE

## AWS CodeBuild

- 100 build minutes per month of build.general1.small compute type usage\*\*

## AWS Storage Gateway

- up to 100GB a month free\*
- up to \$125 a month maximum charges\*\*

## AWS Free Tier (12 Month Introductory Period):

These free tier offers are only available to new AWS customers, and are available for 12 months following your AWS sign-up date. When your 12 month free usage term expires or if your application use exceeds the

tiers, you simply pay standard, pay-as-you-go service rates (see each service page for full pricing details). Restrictions apply; see [offer terms](#) for more details.

Amazon Relational Database Service (RDS)

- 750 hours of Amazon RDS Single-AZ db.t2.micro Instances, for running MySQL, PostgreSQL, MariaDB, Oracle BYOL or SQL Server (running SQL Server Express Edition) – enough hours to run a DB Instance continuously each month\*
- 20 GB of database storage, in any combination of RDS General Purpose (SSD) or Magnetic storage
- 10 million I/Os (for use with RDS Magnetic storage; I/Os on RDS General Purpose (SSD) storage are not separately billed)
- 20 GB of backup storage for your automated database backups and any user-initiated DB Snapshots

- 10GB per month of optional EBS storage (Magnetic or General Purpose)\*

Amazon Pinpoint

- 5,000 free targeted users per month\*
- 1,000,000 free push notifications per month\*
- 100,000,000 events per month\*

AWS OpsWorks for Chef Automate

- 10 nodes per month\*

AWS IoT

- 250,000 messages (published or delivered) per month\*

\* These free tier offers are only available to new AWS customers, and are available for 12 months following your AWS sign-up date. When your 12 month free usage term expires or if your application use exceeds the tiers, you simply pay standard, pay-as-you-go service rates (see each service page for full pricing details). Restrictions apply; see [offer terms](#) for more details.

\*\* These free tier offers do not automatically expire at the end of your 12 month AWS Free Tier term, but are available to both existing and new AWS customers indefinitely.

† The following Windows variants are not eligible for the free tier: Microsoft Windows Server 2008 R2 with SQL Server Web, Microsoft Windows Server 2008 R2 with SQL Server Standard, Microsoft Windows 2008 R2 64-bit for Cluster Instances and Microsoft Windows 2008 R2 SQL Server 64-bit for Cluster Instances.

The Amazon AWS Free Tier applies to participating services across our [global regions](#). Your free usage under the AWS Free Tier is calculated each month across all regions and automatically applied to your bill – free usage does not accumulate. The AWS Free Tier is not available in the [China \(Beijing\)](#) region at this time.
